Coimbatore IN

SRIHARIVISHNU JANAKIRAMAN

Software Developer

Summary

- I am a becoming a software developer specially I had some hands on experience in HTML,CSS and Bootstrap. I often rely on Backend Using Core Java and illustration development because I have a knack for that field. besides that I also have an advantage in building a new design.
- Previously I was a cloud administrator with 10+ months of internship experience in the area of computer networks, cloud computing, cloud and system administration. And I managed the technical issues like network based and hardware based issues. So that I can look forward to the technical support and network or cloud support roles.
